

Jump Yer Bones / Mondo Heptet

The LOD boys go incognito for a little tasty sonic *subversion*. These International Figures serve up a surprising little encyclopedia of Swing. From Fats Waller to Jump/Swing and most things in between. Who or what is Mondo Heptet? Seven heads, trumpet/flugelhorn, tenor/bari sax, trombone, drums, bass, guitar, front-boy and one mind skinny-dipping in the same spring discovered by Louis Armstrong and explored by the Basie Band; the same waters tread by James Brown and parted by Jimi Hendrix.

Swing, Soul and Rock n' Roll CD

The vibe in this place was so hip, so much about music and passion and joy. The crowd was so together. The scene was so right. I don't exactly remember how we got over to Doreen's place that night, and I never got the name of the band, but when I came to, Brother, I was healed! Tunes include Caldonia, Radar Love, All She Wants to do is Rock, Farther Up The Road, 300 Pounds of Joy and many more.15 cuts in all!

A Swingin' Christmas

"Swingin' For the Baby Jesus" - at least that's what we would have called it. And we would change the cheesy package to something with some attitude, but that's not our call, as this was done for Intersound International, Inc., and they released it as **"A Swingin' Christmas."** Still, the music is GREAT! The PERFECT Christmas CD. This disc is filled with the most appealing arrangements of everyone's favorite Christmas classics. Play this at any Christmas party and we guarantee someone will ask you where they can get a copy.
